

Introducing Phuel Oil Tools

Phuel Oil Tools is an independent Scottish company based in Aberdeen and led by a team who have combined their skills and experience to offer quality products to the well services market.

The Scots are recognised worldwide for being down to earth, solid and dependable, and yet innovative and committed to pushing boundaries. Here at Phuel we reflect this in our four core values:

► **Integrity** — we work in tandem with our clients, never over-promising, and always enforcing our strict quality codes

► **Pride** — we are passionate about what we do, we share our enthusiasm and deliver the best

► **Proficiency** — we listen to our clients, we're flexible and we're continually developing and enhancing our products and services

► **Innovation** — we are always looking ahead, we're open to new ideas and constantly striving to make the best even better.

Our mix of engineering expertise, hands-on experience and modern manufacturing techniques means we can deliver an excellent service, and our mission is to constantly innovate across our business model to offer the ultimate in customer satisfaction and product performance.

We specialise in ground-breaking products that lower operating costs, simplify operations, increase well intervention safety, and represent a step change in standard pressure control equipment performance and expectations.

Phuel is developing the future of pressure control products today — contact us to make sure you stay ahead.

**A FLEXIBLE
APPROACH,
IMPROVED SAFETY
AND EFFICIENCY
THROUGH DESIGN**
